

# FLOMAX<sup>®</sup> 15 Stainless Steel

## 3" x 3" Self-Priming Centrifugal Pump

The 316 Stainless Steel FLOMAX 15 provides excellent chemical compatibility and corrosion resistance for "hard to handle" aggressive fluids making it ideal for numerous agricultural, industrial and marine applications.

Two basic pumpak styles allow the FLOMAX 15 self-priming centrifugal to fit standard Nema "C" frame electric motors or engines and standard MP pedestal mount.

The standard mechanical seal is stainless steel, viton and carbon/ceramic. Consult factory for special material combinations.

**5 HP • 7.5 HP**  
FLOWS TO 320 GPM  
UP TO 134 FEET HEAD

SELF-PRIMING TO 25 FEET

### AVAILABLE MOUNTINGS:

- CLOSE CPLD. TO ELECTRIC MOTOR
- PEDESTAL
- ENGINE
- PUMPAK FOR NEMA C FACE MOTOR
- COMPATIBLE MOTOR FRAMES:
- 182TC • 184TC
- 213C • 215C
