

FLOMAX 40

4" x 4" Self Priming Centrifugal Pump

FLOMAX® 40 self-priming centrifugal pumps are capable of creating vacuum sufficient to lift liquids from heights up to 25 feet above the source. Once primed, the pump's built in flapper valve will maintain a full column of liquid in the suction line.

A FLOMAX® 40 PumPAK® is a fully assembled and run tested pump end that can be easily coupled to a number of drivers such as 215JP frame motors and gas engines. A bearing pedestal is also available for T-frame motor or belt drive.

Standard features include stainless steel drive sleeve, stainless steel fasteners, renewable wear plate, and a semi-open dynamically balanced impeller. Options include double grease-lubricated seals, stainless steel impeller and seals for all types of abrasive and/or corrosive services.

The FLOMAX® series of pumps are commonly used in Industrial, OEM, Agricultural and Marine applications, such as: Bilge Pumps, Auxiliary Fire Pumps, Ballast Transfer Pumps, Washdown Pumps, Fertilizer and Pesticide Pumps, Applicators & Sprayers, Blending Pumps, Nurse Tanks, Bulk Transfer Pumps and much more.

ABS Type Approval for the Flomax 40 - [Download PDF](#)

Application

- Agricultural
- Industrial
- Marine
- OEM

Features

- Renewable wear plate
- Stainless steel drive sleeve
- Stainless steel fasteners
- Up to a 25' suction lift

SPECIFICATIONS:

Suction And Discharge	4" x 4" NPT
Materials Of Construction	Cast iron
Flow	Up to 750 GPM
Head Feet	Up to 225'
Impeller	7.75" max diameter - semi open
Motor	Up to 50 HP
Drive Options	Pedestal, PumPAK® (without motor)
Seal	Special seal material combinations available (consult factory), Standard carbon / ceramic / Viton
Max Solid Size	.65"
