

PATENT INFORMATION

MP Pumps intellectual property identification details. Your MP pump may be protected by one or more patents shown below. Most pumps are identified with a patent link to this page while others may have a patent number shown on the identification label.

Product	Pump Model Names	Title	Patent Identification
FMX75	FMX75, FRX75-SP(all)	Self Priming Centrifugal Pump	CA2688423A1, CA2688423C, EP2191144A1, EP2191144B1, US8202046, US20090053049, WO2009026322A4,
HTO/HTW	HTO, HTW (all)	Centrifugal Pump with Improved Drive Shaft and Heat Exchanger	US8152458B2
Hydraulic Motor	All pumps using the gerotor motor pedestal. FM5, FM8, S30, S80, S110, and S130 (FM=Flomax, S=Series)	Bi-Rotational Hydraulic Motor with Optional Case Drain	US8459972B2
Double Seal Cartridge Pumps	Flomax 5, 8, 10, or 15 with double seal grease cartridge option	Double Seal Pump with Integral Accumulator	US9638205B2
FM5/8	Flomax 5 or 8	Improved Fluid Pump	Pending
FMX100	FMX100 (all)	Impeller Pump	Pending
SK150	SK150L, SK150H	Inducer Pump	Pending

We don't just go with the flow, we create it!™
